

Solaris Maxi

The SOLARIS Maxi is designed for temporarily floodlighting large areas. This can easily be set up in under 2 minutes and used anywhere.

The Maxi comes with a space saving telescopic pole to suit your lighting needs. It has five light modes, and includes a coiled lead to avoid trip hazards from cabling.

Lightweight, easy to carry / transport and store. Quick and easy to assemble and of robust, weatherproof construction, also suitable for emergency services, military and construction sites.

Quick setup and easy to assemble

Supplied with:
 Mains charger
 Extension pole
 Battery status indicator
 16K Solaris head and powerpack

+ Optional extras:
 CH5 way multi charger
 Vehicle charger
 Carry bag
